Walking from the railway station: cross rails at end of platform. Sneak around construction site towards left. Walk straight down avenue towards sea. When you hit the sea, turn right. Keep the sea to your left walking along about 60 yards just past Restaurant "Angela". Look out for illuminated sign "Maria Paz" Enter through small passage in bushes. Second stairs to your left are yours.

From Motorway: (please do also note copies of city plan on page 2. Watch out – red line is invalid ! Please follow new green line !)

At the exit , turn left towards Cambrils. Follow the straight road, even if Cambrils is marked (do not follow "Centro ciutat but "N-340") until you reach the "Carretera N 340" Tarragona /Valencia. Join the Carretera in direction Tarragona (difficult combination of roundabout and traffic lights – you are turning left) There is a fortified church to your left. After a rather short distance, maybe 60 m (right before zebra crossing and a small colourful monument), turn off carretera to right into avenue towards "Cambrils Puerto,". Turn left at end of avenue in front of Railway station "Renfe".

At end of road turn right under the bridge. Follow down to the sea. Turn right. Follow road around tree and away from the sea until you have a yellowish building to your left. This is the first possible turn to the left. Got to the end, past a Cafeteria and various shops. At the end (second turn possible) go left into dead end towards sea. (cul de sac) t, at the end of the street there is an entrance with a barrier at an "elderly" five level house.

Beware ! The area is currently being re-modelled, So you may have deviations or new traffic guidance.

Enter there, go around a bush/grotto (it's our open air shower), and take the second and last alley towards the sea.

The terraced houses are your destination. Our apartment is on the top floor of the second house from the front. (Marked "Ihr Eingang" on the picture)
